CAUTION EXTRA

A man by the name of CLAPP has engaged with a young man of the name of S P Townsend and uses his name to put up a Sarsaparilla which they call Dr Townsend's Sarsaparilla, denominating it *GENUINE* Original &c This Townsend is no doctor and never was but was formerly a worker on railroads, canals, and the like. Yet he assumes the title of Dr., for the purpose of gaining credit for what he is not This is to caution the public not to be deceived and purchase none but the *GENUINE ORIGINAL OLD* Dr Jacob Townsend's Sarsaparilla having on it the Old Dr's likeness, his family coat of arms and his signature across the coat of arms

Principal Office, 102 Nassau st New York city

OLD DR. JACOB TOWNSEND.

THE ORIGINAL DISCOVERER OF THE

Genuine Townsend Sarsaparilla

Old Dr Townsend is now about years of age, and has long been known as the *AUTHOR and DISCOVERER* of the *GENUINE ORIGINAL TOWNSEND SARSAPARILLA*. Being poor, he was compelled to limit its manufacture by which means it has been kept out of market and the sales circumscribed to those only who had proved its worth and known its value. It had reached the ears of many, nevertheless, as those persons who had been healed of sore diseases, and saved from death proclaimed its excellence and wonderful

HEALING POWER

Knowing *many years ago* that he had by his skill science and experience devised an article which would be of incalculable advantage to mankind when the means would be furnished to bring it into universal notice when its inestimable virtues would be known and appreciated This time has come the means are supplied this

GRAND AND UNEQUALLED PREPARATION is manufactured on the largest scale and is called for throughout the length and breadth of the land, especially as it is found incapable of degeneration or deterioration

Unlike young S P Townsend's it improves with age, and never changes but for the better because it is prepared *on scientific principles* by a *scientific man*. The highest knowledge of Chemistry and the latest discoveries of the art have all been brought into requisition in the manufacture of the Old Dr's Sarsaparilla The Sarsaparilla root, it is well known to medical men contains many medicinal properties and some properties which are inert or useless and others which if retained in preparing it for use, produce *fermentation and acid* which is injurious to the system Some of the properties of Sarsaparilla are so volatile that they entirely evaporate and are lost in the preparation, if they are not preserved by a *scientific process* known only to those experienced in its manufacture Moreover these *volatile principles* which fly off in vapor or as an exhalation under heat are the very *essential medical properties* of the root which give to it all its value

Any person can boil or stew the root till they get a dark colored liquid which is more from the coloring matter in the root than from anything else they can then strain this insipid or vapid liquid, sweeten with sour molasses and then call it SARSAPARILLA EXTRACT or SYRUP But such is not the article known as the

GENUINE OLD DR JACOB TOWNSEND'S SARSAPARILLA

This is so prepared that all the inert properties of the Sarsaparilla root are first removed every thing capable of becoming acid or of fermentation is extracted and rejected then every particle of medical virtue is secured in a pure and concentrated form and thus it is rendered incapable of losing any of its valuable and healing properties Prepared in this way it is made the most powerful agent in the

Cure of innumerable diseases

Hence the reason why we hear commendations on every side in its favor by men women and children We find it doing wonders in the cure of *CONSUMPTION DYSPEPSIA and LIVER COMPLAINT, and in RHEUMATISM SCROFULA PILES COSTIVENESS ALL CUTANEOUS ERUPTIONS PIMPLES BLOTCHES* and all affections arising from

IMPURITY OF THE BLOOD

It possesses a marvellous efficacy in all complaints arising from *Indigestion*, from *Acidity of the Stomach* from unequal circulation, determination of blood to the head palpitation of the heart, cold feet and hands cold chills and hot flashes over the body It has not its equal in *Colds and Coughs* and promotes easy expectoration and gentle perspiration relaxing stricture of the lungs throat and every other part

But in nothing is its excellence more manifestly seen and acknowledged than in all kinds and stages of

FEMALE COMPLAINTS

It works wonders in cases of *Fluor Albus or Whites, Falling of the Womb Obstructed, Suppressed or Painful Menses Irregularity* of the menstrual periods and the like and is as effectual in curing all the forms of *Kidney Disease*

By removing obstructions and regulating the general system, it gives tone and strength to the whole body and thus cures all forms of

Nervous diseases and debility,

and thus prevents or relieves a great variety of other maladies as *Spinal irritation Neuralgia St Vitus Dance Swooning Epileptic Fits Convulsions* &c

It cleanses the blood excites the liver to healthy action tones the stomach and gives good digestion relieves the bowels of torpor and constipation allays inflammation purifies the skin equalises the circulation of the blood producing gentle warmth equally all over the body and the insensible perspiration relaxes all strictures and tightness removes all obstructions and invigorates the entire nervous system Is not this then

The medicine you pre-eminently need

But can any of these things be said of S P Townsend's inferior article? This young man's liquid is not to be

COMPARED WITH THE OLD DR'S

because of one GRAND FACT that the one is INCAPABLE of DETERIORATION and

NEVER SPOILS

while the other DOES; it sours, ferments, and blows the bottles containing it into fragments; the sour acid liquid exploding and damaging other goods! Must not this horrible compound be poisonous to the system?—*What! put acid into a system already diseased with acid!* What causes Dyspepsia but acid? Do we not all know that when food sours in our stomachs what mischief it produces? flatulence heartburn palpitation of the heart, liver complaint, diarrhoea dysentery cholic and corruption of the blood? What is Scrofula but an acid humor in the body? What produces all the humors which bring on Eruptions of the Skin Scald Head Salt Rheum, Erysipelas White Swellings Fever Sores and all ulcerations internal and external? It is nothing under heaven but an acid substance which sours, and thus spoils all the fluids of the body, more or less What causes Rheumatism but a sour or acid fluid which insinuates itself between the joints and elsewhere irritating and inflaming the delicate tissues upon which it acts? So of nervous diseases, of impurity of the blood, of deranged circulations, and nearly all the ailments which afflict human nature

Now is it not horrible to make and sell and infinitely *worse* to use this

SOURING, FERMENTING ACID COMPOUND" OF S P. TOWNSEND

and yet he would fain have it understood that Old Dr Jacob Townsend's *Genuine Original Sarsaparilla* is an IMITATION of his inferior preparation

Heaven forbid that we should deal in an article which would bear the most distant resemblance to S P Townsend's *article*! and which should bring down upon the Old Dr such a mountain load of complaints and criminations from Agents who have sold and purchasers who have used S P Townsend's *FERMENTING COMPOUND*

We wish it understood because it is the absolute truth, that S P Townsend's article and Old Dr Jacob Townsend's Sarsaparilla are *heaven wide apart* and infinitely *dissimilar* that they are unlike in every particular having not one single thing in common.

As S P Townsend is no doctor and never was is no chemist, no pharmaceutist—knows no more of medicine or disease than any other common unscientific unprofessional man, what *guarantee* can the public have that they are receiving a genuine scientific medicine, containing all the virtues of the articles used in preparing it, and which are incapable of changes which might render them the AGENTS of Disease instead of health.

But what else should be expected from one who knows nothing comparatively of medicine or disease It requires a person of some experience to cook and serve up even a common decent meal How much more important is it that the persons who manufacture medicine designed for

WEAK STOMACHS AND ENFEEBLED SYSTEMS should know well the medical properties of plants the best manner of securing and concentrating their healing virtues also an extensive knowledge of the various diseases which affect the human system, and how to adapt remedies to these diseases

It is to arrest frauds upon the unfortunate, to pour balm into wounded humanity, to kindle hope in the despairing bosom, to restore health and bloom, and vigor into the crushed and broken, and to banish infirmity that OLD DR JACOB TOWNSEND has SOUGHT and FOUND the opportunity and means to bring his

Grand Universal Concentrated Remedy

within the reach and to the knowledge of all who need it, that they may learn and know by joyful experience, its

Transcendent Power to Heal.

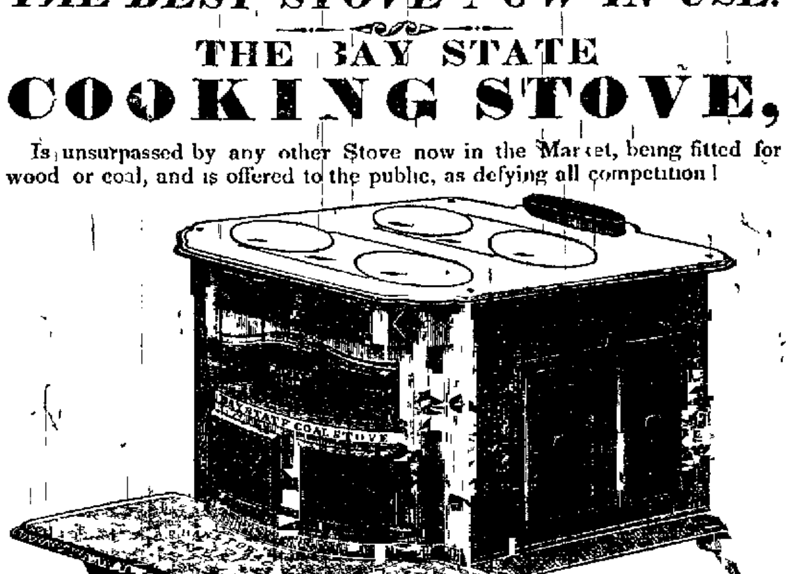
THE BEST STOVE NOW IN USE.

THE BAY STATE

COOKING STOVE,

Is unsurpassed by any other Stove now in the Market, being fitted for wood or coal, and is offered to the public, as defying all competition!



THIS STOVE was patented in 1848, for wood and in 1849 for coal, and has been pronounced by competent judges, the most beautiful and perfect in its appearance, and the best Cook Stove in use. The castings are heavy, smooth and beautiful, the joints are fitted with great perfection, the ovens are very large, and very nearly square and will take four mould ing sized pie plates The fire is so arranged that the wood lays and burns upon the ashes instead of a grate by which means the fire can be preserved for a long time, and as the oven projects under the fire chamber the fire and flues produce a beautiful heat over the front of the oven, and causes the whole oven to heat equal. It has a beautiful apparatus for toasting and broiling by which means all the smoke is taken off into the flue.

The coal stove has a cylindrical, or oval cylinder, lined with soap stone, or fire brick, and confess is the best form of fire chamber in which to burn coal

It is the subscriber in the superiority of the above Stoves over all others in the market, that he will after a fair trial of thirty days, refund the money and all expenses, if it does not meet the expectations of the purchaser

The largest best selected, and most desirable Stock of Air Tight Cooking Office, and Parlor Stoves, in this market at Wholesale and Retail Also, Cooking Ranges and Hot Air Furnaces, at prices to suit the times

On hand as usual a large assortment of LEAD PIPE CASTINGS, COPPER and TIN WARE, and all other articles usually found in establishments of the kind

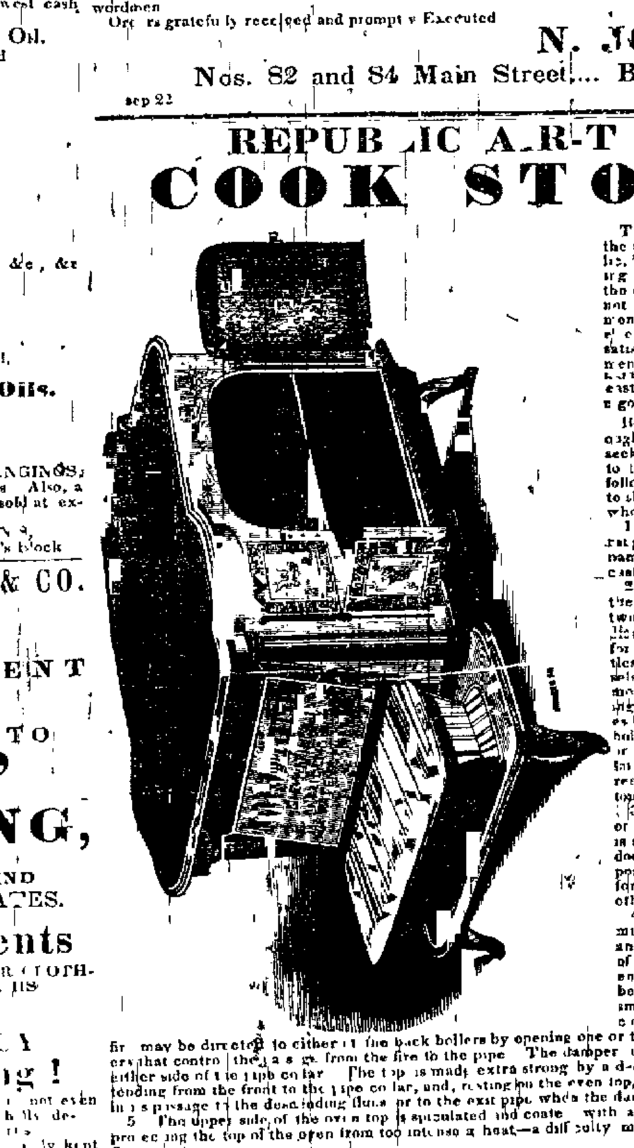
REPUBLIC AIR-TIGHT

COOK STOVE.



THE subscribers, in offering the new Stove called the "Republic," of which the annexed engraving is a correct representation, to the consideration of the public, do not deem it necessary to recommend it as superior to every thing else, or a cure for all the ills of life, satisfied that persons of good judgment and correct taste will not want to be told, but will find it all they want of a good cooking stove

Believing that those who thoroughly examine their stove will not seek a better one, they would offer to those unacquainted with it the following reasons why they expect to share freely the favors of those who wish to purchase

1 Its general economy of arrangement, comely proportions, ornamental appearance, and heavy castings.

2. The particular construction of the top plate, by which either of the two front holes may be enlarged in diameter from three to four inches, for the accommodation of brass kettles, or other large-bottomed vessels, or they may be united by removing two lift-out pieces, forming an oblong oval twenty-one inches by eleven in the No 8 or 8 inch boiler thereby affording a place for the reception of an unusually large wash boiler, at the same time removing the exposed part of the top from the intense heat of the fire.

3 A drop front door, with an air or draft slide by which the furnace is supplied with heated air This door, when let down to a horizontal position makes a convenient platform for a broiler, toasting iron, or other utensil

4 The flues or fire-passages are much larger than in ordinary stoves and rounded wherever the direction of the current is changed, thereby ensuring a full and free draft over, behind, and under the oven, the smoke-pipe, when the dampers are closed, or the whole force of the fire may be directed to either of the back boilers by opening one or the other of the two swing dampers that control the passage from the fire to the pipe The damper turns pass through the top plate on either side of the pipe collar The top is made extra strong by a deep flange cast on the inside, extending from the front to the pipe collar, and, resting on the oven top, divides the current from the fire-box in its passage to the descending flues or to the exit pipe when the dampers are open.

5 The upper side of the oven top is spiculated and coated with a non-conducting cement thereby protecting the top of the oven from too intense a heat—a difficulty much complained of in reversible flue stoves

6. The oven bottom is made thoroughly hot by the large space allowed to the flues through which the heat passes in its way to the exit pipe and also by the spiculae on the stove bottom, coated like the oven top with non conducting cement, which prevents the loss of heat downwards

Also, every description and pattern of cook stoves to be found in his market, *without any exceptions* together with every article usually kept in a stove establishment

Holden's Alterative and

TONIC MIXTURE,

IS the best combination known for changing the unhealthy secretions of the Stomach, and giving strength to that organ, and for removing many troubles which are often attributed to impurity of the blood

Its action is that of a mild Alterative and Tonic restoring health and strength often without producing any sensible evacuation, and without leaving behind any unpleasant effect on the constitution

By its use the appetite becomes regular and good, digestion perfect sick head ache and many nervous disturbances growing out of imperfect digestion are generally cured persons of debilitated constitutions become healthy and strong by its use

By reason of the sympathy between the stomach and the skin many diseases of the latter grow out of a morbid action of the former, even when the ordinary symptoms of Dyspepsia are wanting and are cured by this medicine

Many troubles of children, supposed to arise from worms are caused by a deranged state of the stomach, and are removed by its use Persons both adults and children left feeble by protracted illness on the same principle are restored to health and vigor by taking it

It contains no poisonous ingredient, and cannot in any case do harm

IN 1840 the subscriber was appointed by the Commissioner of Patents Agent of the U S Patent Office in accordance with the 10th Sec of Act of '37.

Having relinquished the Agency for the transmission of Models and adopted a more expeditious mode of sending them to the Patent Office, *where by a Patent may be procured about six weeks earlier* he continues to forward them free of expense—to prepare Caveats, Specifications Assignments, and all the necessary Papers and Drawings for Patents, and to render advice on legal and scientific matters respecting the same Patents secured in Europe and other countries

By application at this office, inventors are saved the time and expense of a journey to Washington and delay there as well as all personal trouble in obtaining their patents They also have the advantage of *verbally* explaining their inventions and of consulting in respect to them, *matters, in general, of paramount importance in order to obtain correct specifications and claims* The experience of *sixteen* years practice, an extensive collection of rare works, decisions, &c on mechanical subjects the Patent Laws, and patents of different countries, collected at much expense during the long time this office has been established, together with accounts here kept of inventions patented, at Washington, enable the subscriber to afford to inventors desirous of procuring Patents assistance and information which in other respects might be difficult of attainment

HUNGARY.

It was but a month since that we were obliged to record the downfall of unhappy Hungary, but her death agonies are not yet over Russia and Austria have not yet trod out the last dim spark of her life Her armies have been cut to pieces, her noble chiefs are in exile and unheard of cruelties have been inflicted upon the defenseless women and children who could not escape the Austrian savage, but what remains of life is a deep, smothered feeling of burning indignation which will awaken into action at the first toesin of a European movement. No, she is not dead, but sleepeth If she could feel that Russia would trouble her no more if she were to contend with Austria alone ten thousand avengers would spring out of the ground, and darken the banks of the Danube, and punish her merciless tyrants

But, reader, trace with us once more the cause of this Hungarian movement Let us see if it was one of those revolutionary uprisings against monarchy, the restlessness of a people who have become warmed with the Promethean fire, of republican principles, or was it the struggle of a brave people for the privileges it has enjoyed for a thousand years Says Kossuth in his letter to Palmerston, "It was not prompted by the spirit of disorder or the views of faction Nothing but the most revolting treachery, the most tyrannical oppression, and cruelties unheard of in the words of history, nothing but the infernal doom of annihilation to her national existence preserved through a thousand years, were able to arouse her to oppose the fatal stroke, aimed at her very life

Of her physical character her population, a word might be said The write of this article lately had a conversation with Prof. Robinson, who, next to Humboldt, is perhaps, travelled more than any other man in the world, says of Hungary, that her soil is the most productive and her climate the most beautiful in the world Her mountains, her plains, and her valleys sustain the products of every zone, while her mineral wealth rivals the riches of California Yet all these fine natural advantages can do her no good, in consequence of the restrictions Austria imposes upon her trade Her population is over twenty millions, consisting of Germans, Wallachs, Magyars, Croatians, and Cossacks The Hungarian is a descendant of the Huns, a Tartar race They are sometimes called *Magyars*, pronounced Mod-yars, which means the same as Hungarian

Hungary used to elect its kings, but in 1687 the royalty was made hereditary in the house of Hapsburg Lorraine, but she had never been regarded as a province of Austria, nor did Austrians ever hold offices in the Hungarian kingdom Various attempts have been made to fuse the two kingdoms together, but they have always ended in insurrections Leopold I began a long struggle which ended in 1711 by Joseph I, who was constrained to confirm the ancient constitution. Every succeeding [illegible] though perpetually thwarted by Austrian folly and ambition They desired first that the distinctions between the privileged and the unprivileged classes be abolished Secondly, that there might be perfect toleration in their religious creeds Thirdly, they desired to establish free trade with all nations, for Austria has great country to herself for a market, while all the Hungarian produce was treated like that brought from foreign countries. Fourthly, she has desired a free press Fifthly, to develope the great resources of Hungary by all sorts of internal improvements in her agriculture, in roads and bridges To this has been lately added a struggle for general education

They particularly desired by legal and constitutional means to obtain an independant ministry, responsible to their own parliament.—Just at this period of their demanding this measure Vienna rose against Metternich and the Hungarian Diet pressed its claims which were granted, but it seems with a mental reservation to withdraw them the moment the storm should blow over, and a letter of the Archduke Stephen has been found in which three modes of destroying the Hungarian constitution were proposed, either to excite the peasants against the nobles as in Gallacia, and to stand by while the parties slaughter each other or to intrigue with the nobles, or to invade and overpower Hungary with military forces The first of these methods was pursued, Jallachich the Ban of Croatia was secretly instigated to organise a revolt against Hungary to afford the Austrian government a pretext for withdrawing its promises, and placing Hungary under martial law It succeeded. A revolt ensued The eloquence of Kossuth brought out masses which defeated Jallachich with twice their numbers

The Austrian cabinet now tried to obtain from Ferdinand a direct permission to serve Hungary by right of conquest, but at this time Ferdinand began to be troubled with religious scruples and they deposed him by prevailing upon him to abdicate in favor of his nephew, a youth of only eighteen, who would have no scruples about invading the laws and constatution of Hungary, while the Russians, their new ally, penetrated into Transylvania The Hungarians regarded their uprising as justifiable — First, they said that Ferdinand had no legal power to abdicate without leave of the Diet, which leave it was impossible to grant, since in the course of nature Ferdinand might yet have direct issue [illegible] but if he became incapacitated [illegible] might effect to appoint an [illegible] Ferdinand had died Francis was [illegible] to the Hungarian throne [illegible] Ferdinands brother [illegible] that illegal [illegible] ly ducted [illegible] has been avoided Hence [illegible] Hungarians [illegible] resist In the course of March and April [illegible] battles were fought in which the Austrians were soundly thrashed The Austrian then [illegible] was desperate [illegible] and they fled in the Russian

Upon the entrance of the Russians the last loyal Hungarian was finally alienated, and the Hungarian Parliament solemnly pronounced the House of Hapsburg to have forfeited the crown Kossuth was made President. A host of generals worthy [illegible] noblest of our revolutionary patriots appear Braver men than Gorgey, Dembinski and Bem never lived. But what avails bravery and the highest personal daring against such odds The world has not words to express its admiration of the heroic conduct of the Hungarian Patriots While the name of Washington endears us, while Kossuisco is remembered by the Pole, so long will the high-souled Kossuth be familiar to the ears of men. They fought as long as fighting could avail.—They saw their country a mass of smouldering ruins, and they fled to the Turk for refuge who receives them under his protection, with cordial assurances of good faith, but no wavers, as it shall be to cost him dearly if he disobeys the mandate of the Czar, who growls for his prey, and threatens destruction to all who oppose him Self defence is a law of nations The Ottoman dreads an encounter which will cost him his life and his country, but he will protect them nevertheless, if they will but become true Mussleman, and ignore Christianity. But this they cannot do for save themselves from an ignominious death.

Will Turkey give them up? Will Russia withdraw the demands? What course will England and France take in the mean time. These questions may be answered on another occasion We fear we have already encroached too much upon the patience of our readers, and will now allow them rest. W.

☞ Our neighbor, Mr Joseph Bither, the Blacksmith, who had aside his work, during the prevalence of the cholera, and devoted himself to nursing the sick, and who himself took the disease, and who has been prostrated for weeks, has, at length recovered, and is ready to commence work again He is a good workman, and deserves well of the public for this, and also for the kind sympathy he manifested for the sick, and for the great sacrifices he was ready to make to relieve the suffering

It is a burning shame, and which makes us blush for mankind, that since Mr Bither's shop has been closed, certain scoundrels have stolen a large quantity of his best tools, his screw-plates, hummers, moulds, &c. This is equal to robbing the grave of a Philantroplast and forms a close comrax to the many robberies which have taken plade here within a few weeks.

Mr Bither deserved better treatment than that, and instead of losing tools, should rather be rewarded with the present of a handsome suit

STARS AND THE EARTH —Permit me, Mr Editor, to recommend to your readers, a wonderful little work of recent appearance, entitled "Stars and the Earth It is an attempt to amplify our ideas of the Omnipresence and Omnipotence of Deity, of time and space, by astronomical illustrations, such as all can understand, and very successful has the author been, in our opinion The work has attracted the attention of the literary circles in Boston and vicinity, and is very justly regarded as the most wonderful production of the present time It is [illegible] and it [illegible] only a New Zealand [illegible] which may be read in an hour, but which may be studied for weeks It is not often a gem of this kind is concealed in a form so unpretending, and can be bought for the paltry sum of twenty-five cents, and when it is so concealed the attention of the public must be specially directed to it, or it passes unnoticed This is our apology for calling your attention to the work

Mr Duren has a supply, I believe X.

MONUMENT THROWN DOWN —The Skowhegan Clarion states that the monument erected at old Point Norridgewock, to the memory of the Jesuits, Father Rasales, was thrown down a short time since, by some worthless scamps who deserve to spend the remainder of their lives in the State Prison We believe this monument has been thrown down once before The citizens of Norridgewock, have passed resolutions condemning the perpetrators of this outrage, and expressing the hope that they may be detected, and punished, and that the monument may soon be replaced.

A GREAT CROP OF CORN —A correspondent from Licking county, Ohio writes to the Tribune, that at the late agricultural fair there, Gen Thomas W Wilson took the premium for the best crop of corn, the product of which, per acre was 181 bushels His farm is large, comprising some 100 acres, and the General is considered one of the best of the Ohio farmers, which is saying a great deal There were several competitors, none of which produced less than 100 bushels to the acre

☞ The unshod multitude, as well as all the boot and shoe wearing race, should understand that Mr. Moody will begin this forenoon at nine o'clock, to sell at auction, the entire stock of Boots, Shoes &c, of Henry Little & Co's, a part of the stock being damaged by the late fire, in order to make room for an entirely new and fresh stock, Good bargains may be expected at the sales room No 2 Smith's Block.

☞ We would direct the attention of our readers, the good natured public, to the notice of Mr E W Hasey, announcing that he has opened a first rate market, on Kenduskeag Bridge Printers, of course, never eat anything—how can they afford it, when there are people who do eat that dont pay them—but all who indulge in the luxury of good dinners, will be sure to find something to their taste at Mr Hasey's establishment.

It appears a report made in Philadelphia, that nearly a quarter of a million of dollars ($238,230) has been paid out of the county treasury there since 184[illegible] for the support of riots This sum does not include the enormous bill which has yet to be found for the riot on election night which will probably bring the amount just up to a quarter of a million

In case of war between Russia and Turkey, her would probably occur very soon a general insurrection of the Greek and other Christians within the Turkish Empire who are reckoned at twelve millions

BANGOR Nov 1st 1849

DEAR SIR.—The members of the Female Tract Society in this city feeling a deep interest in your welfare and in that of the company sailing with you, would herewith respectfully present you with several packages of religious tracts You will please accept them as a testimonial of regard from absent distant friends who will follow them and you with their best wishes and their prayers

As these books are not of a controversial but of a practical character, it is hoped that with the Divine blessing they may be interesting and useful to you all

Amidst temptations and dangers on the land and on the deep—may the Lord preserve you may he bless you with all needful, worldly good, and more especially may he bestow upon you largely and individually that Heavenly wisdom which is more to be desired than gold that perishes

So pray—and so will continue to pray—the members of the Female Tract Society.

Capt Saunders will take such measures as seem to him best to circulate these little books among his passengers and crew.

BANGOR, Nov 1st 1849

TO THE OWNERS AND PASSENGERS OF THE CANTERO—

GENTLEMEN —At the stated weekly prayer meeting of the Hammond Street Church last evening, mention was made of your being just ready to leave port for California. We perceived that your numbers were large and a strong desire was manifested to presentto you a few volumes of standard religious books, for your use and benefit during the voyage The hat was passed, and a committee of two brethren, Messrs David Hill and E D Godfrey, was appointed to procure, and present to you the Evangelical Family Library This is a very small, but a very choice selection of Books, and the hope is cherished that you may be greatly interested and greatly profited by reading them Having made this arrangement, we united in a special prayer for you.

In the haste with which men pursue their worldly business, they are prone to forget their highest interest. We hope and pray that this will not be the case with you. The perils of the deed are many. But these bear upon the present life The moral perils that endanger the soul in an undertaking like yours, are more and greater than those of the ocean. From these spiritual dangers we pray, and will continue to pray, that you may escape Permit us then to remind you, that the only hope for sinners (and there is no man that lives and sinneth not) is in the Lord Jesus Christ He alone is a refuge for you, in the storm and in the calm, at home and, abroad, amid temptations and in what seems the place of safety We hope every man has his Bible. We hope every man will remember the Sabbath day and keep it holy.

May you all be the objects of the Divine care and being born again not of blood, nor of the will of flesh, nor of the will of man, but of God May you all find rest unto your souls'

At the request and in behalf of the above named committee J MALTBY,
Pastor of the Hammond Street Church.

THURSDAY, Eve, Nov 1st, 1849.

At a meeting of the members of the Bangor Trading and Mining Company, held on board the bark Cantero it was on motion

Resolved, That the undersigned be appointed a committee to return a vote of thanks to the members of the Female Tract Society, and to the members of the Hammond Street Church in Bangor for their liberal donation of books and religious tracts and also for the assurance of their continued interest in our welfare

W W ESTABROOKS, G W TOWLE,
JOHN M LANDER.

On motion of J M Lander
Resolved, That the thanks of this Company be presented to the President, and Directors, retiring, for their untiring labors and zeal in promoting the best interest of the company.

Voted, That the communications accompanying the very acceptable and generous donations of Books and Tracts, together with the proceedings of this meeting be published in the Bangor Daily Whig and Courier and also in the Democrat.

Wm M. TOWLE, Secretary of

☞ General Simon Nowell of this city has shown us a large trace of very fine seed corn raised upon his farm in this city the present season. The certainty of such crops of corn and wheat as have been vouchsafed to the farmers of Maine the season, our State in a few years would stand very high for its agricultural resources and for the system and extent of its farming

☞ Mr. Bugbee has received No. 3 of Phillips Sampson & Company's beautiful edition of Shakespeare's Dramatic Works, containing entire the "Merry Wives of Windsor," with a new steel portrait of Mrs. Ford

☞ The editor of the Jeffersonian seems to be completely befuzzeled in his article to day on Kossuth's letter He has whirled matters about very strangely—very—for a man who reads the papers! Austria demands Kossuth of Sultan Rich!

ARRIVAL OF THE STEAMSHIP

HIBERNIA

The Hiberian, Capt Stone, after a rough passage across the Atlantic groped her way into the harbor of Halifax in a dense fog about 7 o'clock, Friday evening. She brings Paris dates of the 18th, and Liverpool dates of the 20th ult together with mail. 100 passengers.

COMMERCIAL SUMMARY.

Business affairs have undergone no material change since the sailing of the Europa

We have no later news from Turkey and Russia, the general belief however, among well informed circles, is said to be that Russia will pocket affront rather than provoke a collision with France and England. The Porte is said to have appointed the Isle of Candia as the residence of the Refugee Magyars

AUSTRIA AND HUNGARY

A treaty between Austria and Russia was signed at Vienna Sept. 20, and ratified by Prussia on the 10th ult, which provides that Austria and Prussia should resume the administration of the central power to the German Confederation in the name of all the governments of the confederation until the first to May 1850, unless this power can be transferred to a definitive power till that period

Accounts from Rome are the reverse of satisfactory The return of the Pope is still talked about, but when it may take place is still the subject of conjecture. Land rent conspiracy in Ireland, is extending throughout all parts of that ill fated land, and the local journals are filled with accounts of the reduction of the crops There can be no doubt but that in the Southern and parts of the Northern Provinces there is a general determination, on the part of the Peasantry, to defraud Landlords of their rents, to such an extent as would seem calculated to consummate the ruin of the country

The fearful effects of the Potato blight, the Fever, the Cholera, and the other diseases by which Ireland has been desolated seems likely to be far exceeded by the calamitous results of the moral pestilence that is spreading so rapidly throughout the land

NEW YORK Nov 6 1 P M

From Mexico.

Advices from Vera Cruz to the 22d have been received by the steamer Ferro at Mobile

The Teviot has $450,000 in specie for England and A portion of this being an installment on the Mexican claims

Accounts from the city of Mexico to the 13, he Sierra Gorda insurrection had been ended and the insurgents had submitted to the government

The cholera was fast disappearing from the Provinces

Fears were entertained that several vessels due at Vera Cruz when the Tevriot left had been lost

The administration of Mexico gives great satisfaction and every thing would go to run unless new measures were adopted to check the feeling of discontent Assassinations are frequent in broad day light and the authorities are powerless to stop them A large portion of the people openly advocate annexation to the United States But though so wish the return of Santa Anna, are stronger than the party for annexation

A terrible disease called the Bogo has appeared at Vera Cruz represented as very fatal

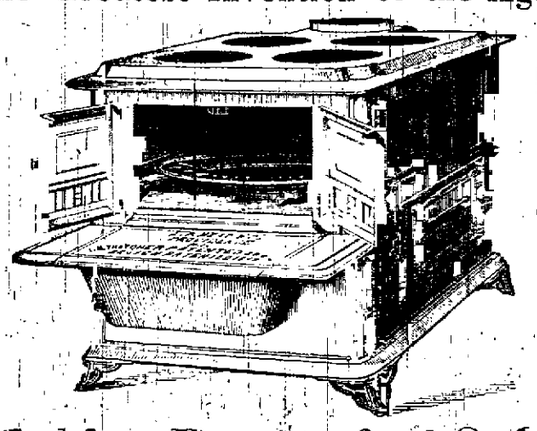
COOKING STOVE,

The Greatest Invention of the Age.



A New Pattern for Sale.

AMONG a host of competitors, THIS STOVE, for its superior advantages, took the first premium at the American institute, city of New York; at the Hartford County Fair Connecticut; at the Worcester Co. Fair, Massachusetts; and Franklin Institute, Philadelphia.

One very important improvement in this Stove is the patent *Broiling Chamber*, (see cut) by which broiling is done to perfection in from four to six minutes, retaining its juices, and giving steaks the same fine flavor and pleasant twang of the best charcoal broil, (it being equally well adapted to toasting, roasting or frying) with the draft to the fire-arch passing through the broiling chamber, and effectually carrying off the steam which usually arises from Broiling. The broiling department is always ready, it being operated by the same fire required for other purposes, and not interfering with any other part of the cooking.

The fire being the centre with, and passing directly around the oven, applies the heat to all parts alike. The oven for Baking is not equalled by any Stove in use. *Warranted as above for thirty days.*

I am now able to work all over the city. I owe my health entirely to your Sarsaparilla and will always be thankful for the same.

RHEUMATISM

This is only one of more than four thousand cases of Rheumatism that Dr Townsend's Sarsaparilla has cured Those stubborn and chronic cases are speedily eradicated by its extraordinary virtues

James Cummings, Esq., one of the assistants in the Lunatic Asylum, Blackwell's Island, is the gentleman spoken of in the following letter:

Blackwell's Island, Sept 14, 1847

Dr. Townsend—Dear Sir I have suffered terribly for many years with the Rheumatism, considerable of the time I could not dress, sleep or walk I had the utmost distress in fingers, and my limbs were frightfully swollen I have used four bottles of your Sarsaparilla, and they have done me more than one thousand dollars worth of good I am so much better—indeed, I am entirely cured You are at liberty to use this for the benefit of the afflicted Yours truly,

JAMES CUMMINGS

FITS! FITS! FITS!

Dr Townsend not having tested his Sarsaparilla in cases of Fits, of course never put it up intending it, and was surprised to receive the following from an intelligent and deep-stable Farmer in Westchester County

Fordham August 3, 1847

Dr Townsend—Dear Sir I have a child seven years of age, who has been several years afflicted with Fits we tried almost every thing for her, but without success, at last although we could find no reconsideration in your Sarsaparilla for its value long we thought as she was so young unfitted for it, we gave her a dose of your Sarsaparilla, and are very glad we did, for it not only restored her strength, but she has had no return of the fits, in consequence of which she is now in good health and very healthy and hearty, for which we feel grateful. Yours, respectfully

JOHN BUTLER, Jr.

FITS! FITS! FITS!

Dr Townsend not having tested his Sarsaparilla in cases of Fits, of course never put it up intending it, and was surprised to receive the following from an intelligent and deep-stable Farmer in Westchester County

Fordham August 3, 1847

Dr Townsend—Dear Sir I have a child seven years of age, who has been several years afflicted with Fits we tried almost every thing for her, but without success, at last although we could find no reconsideration in your Sarsaparilla for its value long we thought as she was so young unfitted for it, we gave her a dose of your Sarsaparilla, and are very glad we did, for it not only restored her strength, but she has had no return of the fits, in consequence of which she is now in good health and very healthy and hearty, for which we feel grateful. Yours, respectfully

JOHN BUTLER, Jr.

Another Life Saved.

Read the following letter from a Clergyman of Camden, Me, to the Editor of the GOSPEL BANNER —

DOWN'S ELIXIR, alias A CURE.

DR. DREW—being anxious to do good to my fellow beings, as I have means and opportunity, I wish to state, through the Banner, that on my sickness last winter and spring, I received very great benefit from the use of N H DOWN'S ELIXIR

I had been troubled some weeks with a severe cold and cough, which continued until I was completely prostrated on my bed. My cough, which created a dry, hard cough. My appetite failed, my strength wasted, and my flesh disappeared Seeing Wistar's Balsam of Wild Cherry recommended in the Banner, I procured a bottle and commenced taking it, and continued its use until I had taken three bottles, when I became satisfied that it contained opium, making a large amount of it unnecessary, and, also contracting the very organs that should be relaxed. I used other kinds of expectorants, but with no good effect. Seven weeks I continued gradually to sink under my disease. At the expiration of which time, I was so tremulously weak my whole body and husky, and my feet and hands cold the rest of the time I had a dull, heavy pain between my shoulders, and a distressing pain at the pit of my stomach My tongue was coated with a thick, white fur, bowels very irregular and costive, hectic fever night sweats, dry, hard cough, difficulty of breathing and low spirits. My stomach at times rejected food and weak, tittering. I was in this situation when I commenced the use of N H. DOWN'S ELIXIR — And to my great joy, and the greater joy of my friends, in twelve days had regulated my bowels, equalized the circulation and promoted a healthy action upon the skin. I used three bottles in two weeks which entirely removed the soreness and weakness from my stomach, gave me a good appetite, and gradually improved my strength. I continued it one weeks using six bottles in which time I was able to resume my business at labors. I have since used and recommended it to a large number, and have never known it to fail of doing good where the directions were followed

I have given it to my children in colds, and in case of measles, and it has proved all it is recommended to be.

I therefore *cheerfully* recommend N. H DOWN'S VEGETABLE BALSAMIC ELIXIR to all who are afflicted with any of the diseases for which it is recommended Yours truly,

J. L. TUTTLE.

Camden, August, 1849

Facts deduced from the foregoing letter:

1st Down's Elixir is laxative—during its use the pores while relieved medicine increases that difficulty

2d It is a repellant It equalizes the circulation—restores a healthy moisture to the skin, and your and to cure the system

3d It removes soreness and weakness from the stomach—gives a good appetite, and restores a strength to the system
